

DESERET SELECT

This summary plan description, or SPD, outlines the major provisions of Deseret Select as of January 1, 2021.

DESERET SELECT KEY POINTS

- Generally, Deseret Select covers contracted providers at 90% and non-contracted providers at 60% of DMBA's allowable amount.
- Certain preventive services—such as colonoscopies, mammograms, physical exams, and well-child care—from contracted providers are covered at 100%.
- Your annual out-of-pocket maximum is \$2,800 per person or \$5,600 per family for services from contracted providers and \$5,600 per person or \$11,200 per family for services from non-contracted providers.
- You or your physician must preauthorize some services with DMBA, such as some surgeries and home healthcare.

MAXIMIZING YOUR BENEFITS

Contracted providers

All DMBA health plans are preferred provider organizations or PPOs, meaning you pay less out of pocket when you receive care from your plan's contracted providers (physicians, hospitals, etc.).

When you receive care from contracted providers, they accept your copayments and coinsurance, along with what DMBA pays, as payment in full for eligible services. They won't bill you for more than DMBA's allowable amount.

When you receive care from providers not contracted with DMBA, they can bill you for the difference between the amount they charge and DMBA's allowable amount. Plus, your share of the expenses increases and you are responsible for all expenses that exceed allowable amounts.

Different DMBA health plans can have different contracted providers. For information about contracted providers in your area for your specific plan, go to www.dmba.com. Our contracted organizations include the following:

Hawaii: MDX Hawaii Network	808-466-4077
Southeast Idaho and Utah: DMBA contracted providers	800-777-3622 or www.dmba.com
Other areas: UnitedHealthcare Options PPO Network	800-777-3622 or www.dmba.com

Preauthorize when needed

You or your provider must preauthorize some services with DMBA.

When you preauthorize with DMBA, we verify that your care is medically necessary and tell you about any length-of-stay guidelines or other limitations.

If you don't preauthorize when required, your benefits may be reduced or denied. You may be responsible for a preauthorization penalty (usually \$200) in addition to the appropriate coinsurance. If DMBA ultimately denies benefits for the service, you will be responsible for all charges.

For more information, see [Preauthorization](#) and *Your Medical Benefits*, which follows.

YOUR MEDICAL BENEFITS

To be a covered service, the healthcare you receive must be medically necessary, meet the plan's guidelines and medical criteria, and be provided by a licensed practitioner of the healing arts. **All benefits are subject to the allowable amounts determined by DMBA.**

ACUPUNCTURE

Contracted provider: The plan pays 100% after your \$35 copayment.

Non-contracted provider: The plan pays 100% of DMBA's allowable amount after your \$45 copayment.

Up to 12 visits are covered per calendar year.

You may receive more than one service in a single visit.

ALLERGY TESTING

Contracted provider: The plan pays 90%; you pay 10%.

Non-contracted provider: The plan pays 60% of DMBA's allowable amount; you pay 40%.

Some testing, such as ALCAT and LHRT, is not covered. See [Exclusion 15.1](#).

For information about injections for allergies, see [Injections](#).

AMBULANCE-EMERGENCY

Contracted or non-contracted provider: The plan pays 90% of DMBA's allowable amount; you pay 10%.

Covered services when DMBA's medical criteria are met:

- Licensed ambulance services to the nearest medical facility equipped to furnish the appropriate care
- Air ambulance services

All benefits are subject to DMBA's allowable amounts.

Medical services and [supplies](#) provided during the transportation are covered at the appropriate benefit levels for those services.

Examples of services not covered:

- Wheelchair van services
- Gurney van services
- Transportation not associated with emergency services

Non-contracted pharmacy: The plan reimburses you 70% of DMBA's allowable amount after you pay the full price and submit a claim to MRx.

Up to a 30-day supply or 100 doses, whichever is greater, of formulary drugs prescribed by your healthcare provider, approved by the FDA, and provided by a licensed pharmacist are covered.

Specialty pharmacy

Contracted provider or non-contracted provider: The plan pays 90% of DMBA's allowable amount; you pay 10%, but no more than \$115 per prescription.

Up to a 30-day supply per prescription of some expensive formulary medications (greater than \$600 per month) that require special handling and treat complex or rare conditions is covered.

PREVENTIVE CARE SERVICES

Contracted provider: The plan pays 100%. A copayment does not apply.

Non-contracted provider: Varies by service.

Please see the [preventive care services table](#).

Preventive care services are designed to help you stay healthy—to prevent illness and disease before they start. They include services that attempt to diagnose disease early, discover issues early, and give you a better chance of recovery.

Example of covered services:

- Immunizations
- Screening tests
- Routine exams
- Some types of counseling

Services not covered:

- Any service or benefit related to an illness, injury, or medical condition you already have
- Services billed as diagnostic

For information about services that are considered preventive, please see the following table.

Prescription drugs associated with a transplant are covered by the [Prescription drugs](#) benefit.

Other transplants are not covered.

TRANSPORTATION

Contracted or non-contracted provider: The plan pays 90% of DMBA's allowable amount; you pay 10%.

All benefits are subject to DMBA's allowable amounts.

Covered services when DMBA's medical criteria are met:

- Transportation services for the covered individual to the nearest medical facility equipped to furnish the appropriate care
- Transportation for one parent or guardian to accompany a child younger than 19

You must [preauthorize](#).

If you travel by automobile, the benefit is based on the IRS standard mileage rate—after the first 200 miles per round trip. If you travel by airplane or train, contact DMBA for more information.

Hotels, meals, and other personal expenses are not covered.

For more information about other transportation services, see the [Ambulance](#) benefit.

URGENT CARE

Contracted or non-contracted provider: The plan pays 100% of DMBA's allowable amount after your \$45 copayment per visit.

For a less expensive alternative, see *Virtual Visit*, which follows.

Other services you receive during an urgent care visit are covered at 90% of DMBA's allowable amount or the appropriate benefit level, whichever is higher.

If the visit results in an [inpatient hospital](#) stay, you must [preauthorize](#) within two business days of admission or as soon as reasonably possible.

VIRTUAL VISIT

Intermountain Connect Care: The plan pays 100% after your \$10 copayment.

If your medical need is not treatable in a virtual setting, you will not be charged for the Virtual Visit.

WELL-CHILD CARE

Contracted PCP or specialist: The plan pays 100%. A copayment does not apply.

Non-contracted PCP: The plan pays 100% of DMBA's allowable amount after your \$35 copayment.

You pay an additional \$5 for an after-hours visit.

Other services, such as [lab work](#) and [X-rays](#), are covered at the appropriate benefit levels for those services.

All benefits are subject to DMBA's allowable amounts.

Labs and routine procedures are not covered when associated with an exam that is not covered.

For more information, see [Mammograms](#) and [Physical exams](#).

LEAVING THE SERVICE AREA TEMPORARILY

If you leave the Deseret Select service area temporarily (90 days or less), you can remain enrolled in the plan.

If the majority of your family members leave the service area for more than 90 days, you cannot remain enrolled in the plan. Contact DMBA for help in switching to another plan available in your area.

DEPENDENTS WHO LIVE AWAY FROM HOME

Within the plan service area

You and each of your eligible dependents can live in different areas. But if you are enrolled in Deseret Select, your entire family must be enrolled in Deseret Select.

If you have eligible dependents who live away from home but within the Deseret Select service area, encourage them to coordinate their medical care with their own PCPs.

Outside the plan service area

If your covered dependents living away from home and outside the plan service area are full-time missionaries or college students, they may be eligible for benefits at the Select contracted provider benefit level. Deseret Select guidelines and limitations, such as preauthorization, still apply. To be eligible for this benefit level, you must let DMBA know by calling Member Services.

MEDICAL EMERGENCIES

Emergency care is medical services needed immediately because of an injury or sudden

illness. Because the time required to reach DMBA could risk permanent damage to your health in an emergency, you don't need to preauthorize medical services in emergency situations.

If you have an emergency, go to the nearest emergency room or call 911 for help.

If you are admitted to the hospital because of the emergency, please contact DMBA within two business days or as soon as reasonably possible to preauthorize the inpatient hospital services.

PREAUTHORIZATION

Preauthorization is an important step in making sure your care meets our medical criteria and helps you know what services are covered before you commit to the costs.

To preauthorize, please have your physician complete the online *Provider Preauthorization Request* form on www.dmba.com at least seven to ten business days before your anticipated services. In an emergency situation when you or your physician cannot contact DMBA beforehand, you or your physician must call DMBA within two business days after the emergency or as soon as reasonably possible.

Provide the following information when you call to preauthorize:

- Patient's name
- Participant's DMBA ID number
- Diagnosis (explanation of the medical problem) and, if possible, diagnostic code
- Pertinent medical history, including
 - » Previous treatment
 - » Symptoms
 - » Test results
- Name of physician or surgeon
- Treatment or surgery planned and, if possible, procedure codes and costs for each procedure
- Where and when the treatment or surgery is planned

All benefits are subject to DMBA's allowable amounts.

Registered nurses and a consulting physician review the case when necessary. When the review is complete, DMBA will send you a letter to confirm the preauthorization.

Please preauthorize as soon as you have compiled the needed information so you can get a written confirmation of the preauthorization before receiving the services.

Failure to preauthorize, when necessary, will result in a denial of your claim. If you appeal a claim for benefits that was denied for failure to preauthorize, the denied claim may be approved by DMBA on post-service review, subject to a penalty (usually \$200), which is payable by you, in addition to your coinsurance. Not all denied claims are eligible for post-service review.

All procedures, services, therapies, devices, etc., must meet our medical criteria to be covered. If your situation doesn't meet our medical guidelines and DMBA ultimately denies benefits for the service, you're responsible for all charges.

Even though your physician provides much of the needed information and may even make the call to DMBA, you're responsible to make sure your care is preauthorized.

Some provider-administered medications must be preauthorized by Magellan Rx Management at 800-424-8269. For more information about the medications that require preauthorization by Magellan Rx Management, please call DMBA.

OUT-OF-POCKET MAXIMUM

If your share of eligible expenses reaches a certain amount in a calendar year (your annual maximum out-of-pocket cost), your benefits for the remainder of the calendar year are paid according to the plan's out-of-pocket maximum.

The out-of-pocket maximum may be calculated on an individual or family basis and includes services from both contracted and non-contracted providers.

For individuals (participants or dependents)

After your share of eligible expenses reaches \$2,800 from contracted providers or \$5,600 for non-contracted providers, benefits increase to 100% for eligible charges, after any copayments, based on allowable amounts.

For families

After your share of eligible expenses reaches \$5,600 for services from contracted providers or \$11,200 from non-contracted providers, benefits increase to 100% for eligible charges, after any copayments, based on allowable amounts.

You continue to be responsible for copayments on these benefits:

- Acupuncture
- Behavioral health—outpatient
- Chiropractic therapy
- Convenient care clinics
- Eye exams
- Hospital emergency room
- Office visits (including telemedicine services)
- Therapy (such as physical therapy)
- Urgent care facility
- Virtual Visit
- Well-child exams
- Well-woman exams

These medical expenses do not apply to your annual out-of-pocket maximum expense and will continue to have associated copayments or coinsurance once the annual out-of-pocket maximum has been met:

- Lifestyle screenings
- Prescription drugs
- Specialty pharmacy
- TMJ dysfunction

These expenses do not apply to your eligible expenses and will not apply to your out-of-pocket maximum:

- Amounts that exceed the allowable amounts
- Charge for not preauthorizing
- Premium payments
- Expenses not covered by the plan

ERRORS ON BILLS OR EOB STATEMENTS

If you see services listed on an *Explanation of Benefits* (EOB) statement that were not performed or could be considered fraudulent, call 801-578-5600 or 800-777-3622. For more information, see the [Fraud Policy Statement](#).

If you find a provider billing error on any of your medical bills after your claims are processed and paid, please verify the charges with your provider. Then submit a written description of the error to DMBA:

Attn: Audit Reimbursement
DMBA
P.O. Box 45530
Salt Lake City, UT 84145

This is referred to as an audit reimbursement request. If the mistake is not otherwise detected, you may receive 50% of the eligible savings, up to \$500 per incident, as defined by DMBA.

Because the error usually means the provider was overpaid, we must first recover the money from the provider before we can return the savings to you. Please be patient while we correct the error.

If DMBA detects an error on a medical bill before you do, we cannot forward the savings to you because this would violate our obligations based on the Employee Retirement Income Security Act (ERISA). We are obligated to maintain the integrity of our medical plans based on ERISA guidelines and regulations.

SUBMITTING CLAIMS

For services from contracted providers, you should not need to submit claims. These providers send bills directly to DMBA for processing. But you could receive a bill mistakenly for services

covered by the plan, a bill from a non-contracted provider, or a bill for care you received in an emergency situation.

To submit a claim for benefits:

1. Get an itemized bill from the provider or facility that includes the following:
 - Patient's name
 - Provider's name, address, phone number, and tax identification number
 - Diagnosis and diagnosis code(s)
 - Procedure and procedure code(s)
 - Place and date of service(s)
 - Amount charged for service(s)
2. Write your name and DMBA ID number on the bill.
3. Complete a *Medical & Dental Claim Form* (available at www.dmba.com in the *Forms Library*).
4. Mail the claim and bill to DMBA:

DMBA
P.O. Box 45530
Salt Lake City, UT 84145

Submit pharmacy claims to MRx, not DMBA. Call MRx at 877-879-9722.

To be eligible for benefits, medical claims must be submitted by you or your provider within 12 months from the service date. It is your responsibility to ensure this happens. DMBA sends you an EOB statement when your claims are processed. Please review all your EOBs for accuracy.

FINANCIAL DISCLOSURE

DMBA health plan providers are under contract with DMBA to provide quality, cost-effective medical care. The financial arrangements in our contracts may include discounts from the normal fees charged by healthcare providers and incentive arrangements that reward quality, cost-effective medical care through the prudent use of healthcare resources.

FRAUD POLICY STATEMENT

It is unlawful to knowingly provide false, incomplete, or misleading facts or information with the intent of defrauding the plan or DMBA. An application for benefits or a claim containing any materially false or misleading information, or any non-compliance with the terms of the plan, as determined by DMBA, may lead to reduction, denial, or termination of benefits or coverage under the plan.

Coverage under the plan may be retroactively canceled or terminated (“rescinded”) if a participant acts fraudulently or intentionally makes material misrepresentations of material fact with respect to the plan. A participant whose coverage is rescinded will be provided with no less than 30 days’ advance written notice of such rescission, and the rescission will be deemed to be a claim denial subject to the plan’s claim and appeal procedures.

COORDINATION OF BENEFITS

When you or your dependents have medical or dental benefits from more than one health plan, your benefits are coordinated between the different plans to avoid duplication of payments. Coordination of benefits involves determining which insurer is required to pay benefits as the primary payer, which insurer must pay as the secondary payer and so on.

You or your dependents must inform DMBA of other medical and/or dental benefits in force when you enroll or when any other benefits become effective after your initial enrollment. If applicable, you may be required to submit court orders or decrees. You must also keep DMBA informed of any changes in the status of the other benefits.

Coordination of benefits rules

When DMBA is the primary plan, eligible benefits are paid before those of the other health benefit plan and without considering the other health plan’s benefits.

When DMBA is the secondary plan, DMBA calculates the amount of eligible benefits it would

normally pay in the absence of other benefits, including the application of credits to any plan maximums, and applies the payable amount to unpaid covered charges after eligible benefits have been paid by the primary plan. This amount includes deductibles and copayments you may owe.

DMBA will use its own deductible and copayments to calculate the amount it would have paid in the absence of other benefits. In no event will DMBA pay more than the participant is responsible to pay after the primary carrier has paid the claim.

We generally coordinate benefits among all DMBA group health plans (Deseret Choice Hawaii, Deseret Premier, Deseret Protect, Deseret Select, and Deseret Value).

SUBROGATION

If you have an injury or illness that is the liability of another party and you have the right to recover damages, DMBA requires reimbursement for the amount it has paid when damages are recovered from the third party.

If you do not attempt to recover damages from the third party as described above, DMBA has the right to act in your place and initiate legal action against the liable third party to recover the amount it has paid for your injuries.

For more information about subrogation, please see your *General Information SPD*.

ELIGIBLE DEPENDENTS

Your eligible dependents include your spouse and dependent children under age 26. Your spouse is the person to whom you are legally married.

EXCLUSIONS

Services that do not meet the definition of eligible, as previously defined, are not eligible for benefits. All procedures or treatments are excluded until specifically included in the plan. In addition, the following services and their associated costs are excluded from benefits.

1. Custodial care

- 1.1 Custodial or long-term care, education, training, or rest cure, which is defined as maintaining an individual beyond the acute phase of injury or sickness and includes room, meals, bed, or skilled or unskilled medical care at any hospital, care facility, or home to assist the individual with activities of daily living including, but not limited to, feeding, bowel and bladder care, respiratory support, physical therapy, administration of medications, bathing, dressing, or ambulation; and where the individual's impairment, regardless of the severity, requires such support to continue for more than two weeks after establishing a pattern of this type of care, except as provided for by the terms of the plan
- 1.2 Inpatient hospitalization or residential treatment for the primary purpose of providing shelter or safe residence

2. Dental care

- 2.1 Dental services, including care and services performed on the teeth, gums, or alveolar process; dentures, crowns, caps, permanent bridgework, and appliances; and supplies used in such care and services, except as provided for by the terms of the plan

3. Diagnostic and experimental services

- 3.1 Care, services, diagnostic procedures, or operations for diagnostic purposes not related to an injury or sickness, except as provided for by the terms of the plan
- 3.2 Care, services, diagnostic procedures, or operations that are
 - considered medical research;
 - investigative/experimental technology (unproven care, treatment, procedures, or operations);
 - not recognized by the U.S. medical profession as usual and/or common;
 - determined by DMBA not to be usual and/or common medical practice; or

- illegal

That a physician might prescribe, order, recommend, or approve services or medical equipment does not, of itself, make it an allowable expense, even though it is not specifically listed as an exclusion.

Investigative/experimental technology means treatment, procedure, facility, equipment, drug, device, or supply that does not, as determined by DMBA, meet all of the following criteria:

- The technology has final approval from all appropriate governmental regulatory bodies, if applicable. (Federal Drug Administration approval does not necessarily mean a service is not investigational/experimental.)
- The technology is available in significant numbers outside the clinical trial or research setting.
- The available research about the technology is substantial.

For plan purposes, *substantial* means sufficient to allow DMBA to conclude the technology is

- both medically necessary and appropriate for the covered person's treatment,
- safe and efficacious,
- more likely than not to be beneficial to the covered person's health, and
- generally recognized as appropriate by the regional medical community as a whole.

A service, care, treatment, or operation falling in these categories will continue to be excluded until the plan administrator determines that it meets all such criteria and specifically includes it as a covered service in the plan.

4. Fertility, infertility, family planning, home delivery, surrogate pregnancy, and adoption

- 4.1 Family planning, including contraception, birth control devices, and/or sterilization

procedures, unless the covered individual meets DMBA's current medical criteria

- 4.2 Abortion and medications to induce abortion, except in cases of rape, incest, or when the life of the mother and/or fetus would be seriously endangered if the fetus were carried to term
- 4.3 Care, services, diagnostic procedures, or operations in relation to the following infertility services: direct intraperitoneal insemination (DIPI), fallopian tubal sperm perfusion (FSP), intra-follicular insemination (IFI), and the GIFT procedure
- 4.4 Donor eggs, sperm, or embryos (including services related to procurement of donor material) used in assisted reproductive technologies
- 4.5 Cryopreservation (freezing), storage, and thawing of sperm, eggs, embryos, and ovarian and/or testicular tissue
- 4.6 Reversal of sterilization procedures
- 4.7 Planned home delivery for childbirth and all associated costs
- 4.8 All pregnancy- and birth-related expenses (prenatal and postnatal) of an individual (including a covered individual) acting as a surrogate or gestational carrier*
- 4.9 Services, drugs, or supplies to treat sexual dysfunction, erectile dysfunction, enhance sexual performance, or increase sexual desire, except the external erectile vacuum erection device under the durable medical equipment benefit

* An infant born to a surrogate or gestational carrier is eligible for coverage from the date on which the infant became a dependent of the participant.

5. Government/war

- 5.1 Services and supplies received as a result of a covered individual's participation in insurrection, terrorism, war or act of war (declared or undeclared), or due to an injury or illness sustained in the armed services of any country
- 5.2 Services that would have been covered by any governmental plan had the participant

complied with the requirements of the plan including, but not limited to, Medicare, except as required by federal law

- 5.3 Services and supplies that school systems are legally required to provide

6. Hearing

- 6.1 The purchase or fitting of hearing aids, except for covered individuals younger than age 26
- 6.2 Hearing devices or services unless expressly designated as eligible under the plan

7. Legal exclusions

- 7.1 Services that the individual is not, in the absence of this benefit, legally obligated to pay
- 7.2 Care, services, operations, or prescription drugs incurred after termination of coverage under the plan
- 7.3 Services and supplies for an illness or injury sustained while committing or attempting to commit an assault or felony, whether or not criminal charges are filed or a conviction results, unless the injury resulted from a medical condition (including both physical and mental health conditions) or from being the victim of an act of domestic violence, subject to the nondiscrimination provisions of HIPAA
- 7.4 Complications resulting from excluded services
- 7.5 Court-ordered treatment unless such services are medically necessary and are otherwise covered under the plan
- 7.6 Services and supplies provided to a covered individual while incarcerated in a federal, state, or local correctional facility; in the custody of federal, state, or local law enforcement authorities; required as a condition of parole; or participating in a work release program
- 7.7 Court-ordered testing, such as drug screening and confirmatory drug testing
- 7.8 Reports, evaluations, or examinations not required for health reasons, such as

employment or insurance, or for legal purposes, such as custodial rights, paternity suits, sports physicals, legal defenses or disputes, etc.

- 7.9 Services not expressly specified as a benefit or covered expense
- 7.10 Care, treatment, diagnostic procedures, or operations for diagnostic purposes that are not related to an injury or illness except as provided for by the terms of the plan
- 7.11 Mandated state service charges and taxes

8. Medical equipment

- 8.1 General/multipurpose equipment or facilities, including related appurtenances, controls, accessories, or modifications thereof including, but not limited to, buildings, motor vehicles, air conditioning, air filtration units, exercise equipment or machines, and vibrating chairs and beds; as well as certain medical equipment, including air filtration systems, dehumidifiers, hearing devices, humidifiers, nonprescription braces and orthotics, learning devices, spa and gym memberships, vision devices, and modifications associated with activities of daily living, homes, or vehicles
- 8.2 Upgrade or replacement of medical equipment when the existing equipment is still functional, unless otherwise specified by the plan
- 8.3 Replacement of a device when damage is due to the covered individual's abuse or neglect
- 8.4 Maintenance, repair, and upkeep of durable medical equipment

9. Medical necessity

- 9.1 Care, services, or supplies primarily for cosmetic purposes (whether or not for psychological or emotional reasons), to improve or change appearance or to correct a deformity without restoring a physical bodily function, except for injuries suffered while covered by the plan or as otherwise provided for by the terms of the plan
- 9.2 Care, services, or supplies that are not medically necessary as defined by the plan

(Covered individuals will receive benefits under this plan only for services that are determined to be medically necessary and not investigative/experimental technology. That a provider has prescribed, ordered, recommended, or approved services, or has informed the covered individual of its availability, does not in itself make it medically necessary or a covered expense. The plan administrator will make the final determination of whether any services are medically necessary or considered investigative/experimental technology. If a particular service is not medically necessary as defined by this plan and determined by the plan administrator, the plan will not pay for any charges related to such services, and any such charges will not be counted toward the out-of-pocket maximum. The charges will be outside the plan and will be the covered individual's financial responsibility.)

- 9.3 Care, services, or supplies for convenience, contentment, or other non-therapeutic purposes
- 9.4 Cardiopulmonary fitness training or conditioning either as a preventive or therapeutic measure, except as provided for by the terms of the plan
- 9.5 Care, services, diagnostic procedures, or other expenses, which include, but are not limited to, abdominoplasty, lipectomy, panniculectomy (except when medical criteria have been met), skin furrow removal, or diastasis rectus repair

10. Mental health, counseling, chemical dependency

- 10.1 Mental or emotional conditions without manifest psychiatric disorder as described in the most recent edition of the *Diagnostic and Statistical Manual of Mental Disorders* (DSM), or with non-specific symptoms
- 10.2 Counseling including, but not limited to, marriage and family counseling, recreational therapy, or other therapy*

- 10.3** Services and materials in connection with surgical procedures undertaken to remedy a condition diagnosed as psychological
- 10.4** Care and services for the abuse of or addiction to alcohol or drugs, except as provided for by the terms of the plan
- 10.5** Care and services for learning disabilities or physical or mental developmental delay, including pervasive developmental disorders or cognitive dysfunctions, except as provided for by the terms of the plan
- 10.6** Mental health services provided in a day treatment program or residential care facility, unless the individual receiving such services meets the requirements for the mental health alternative care benefit, as defined by DMBA, and as otherwise provided for by the terms of the plan
- 10.7** Custodial and supportive care for covered individuals with mental illness
 - * Counseling for a covered individual's diagnosed psychiatric disorder is not considered family or marriage therapy even with the family or spouse present.

11. Miscellaneous

- 11.1** Services of any practitioner of the healing arts who
 - ordinarily resides in the same household with the covered individual, or
 - has legal responsibility for financial support and maintenance of the covered individual
- 11.2** Care, services, supplies, or other expenses when it has been determined that brain death has occurred
- 11.3** Gender reassignment surgery, including all associated procedures and services (medical, psychological, pharmaceutical, surgical, etc.) utilized to facilitate gender transition

17. Vision

- 17.1 Eye/visual training; purchase or fitting of glasses or contact lenses; and care, services, diagnostic procedures, or other expenses for elective surgeries to correct vision, including radial keratotomy or LASIK surgery, except as provided for by the terms of the plan

PATIENT PROTECTION AND AFFORDABLE CARE ACT

As part of the Patient Protection and Affordable Care Act (healthcare reform), health plans are

classified as either "grandfathered" or "non-grandfathered." Because DMBA has maintained the benefit structure that was in place at the time the law passed, our health plans are grandfathered.

As a grandfathered plan, your benefits may not include certain consumer protections included in the law that apply to other plans. But grandfathered plans must still comply with other consumer protections included in the Affordable Care Act—such as eliminating lifetime limits on essential benefits, which DMBA has already done.

For information about which protections do or don't apply, as well as information about what could cause a plan to change from grandfathered to non-grandfathered status, please contact the Employee Benefits Security Administration, U.S. Department of Labor, at 866-444-3272 or www.dol.gov/agencies/ebsa/laws-and-regulations/laws/affordable-care-act.

CLAIMS REVIEW AND APPEAL PROCEDURES

If your claim is denied and you feel that the denial is in error, you have the right to file an appeal. **You must submit your appeal in writing within 12 months from the date we send your adverse benefit decision.** For more information about how to appeal a claim, please refer to your *General Information SPD*.

NOTIFICATION OF DISCRETIONARY AUTHORITY

DMBA is the plan administrator and, in its sole discretion, determines appropriate courses of action in light of the reason and purpose for which the plan is established and maintained. In particular, DMBA has full and sole discretionary authority to interpret and construe the terms of all plan documents, including, but not limited to: resolve and clarify inconsistencies, ambiguities, and/or omissions in all plan documents; make determinations for all questions of eligibility for and entitlement to benefits; determine the status and rights of employees and other persons

under this plan; make all interpretive and factual determinations as to whether any individual is entitled to receive any benefits under the terms of this plan; determine the manner, time, and amount of payment of any benefits under this plan. Benefits will be paid under this plan only if the plan administrator decides in its sole discretion that the individual is entitled to them. All such interpretations and decisions by DMBA shall be final, binding and conclusive on the Employers, the Employees and any other parties affected thereby.

Any interpretation, determination, or other action of the plan administrator shall be given deference in the event the determination is subject to judicial review. Any review by a court of a final decision or action of plan administrator shall be based only on such evidence presented to or considered by DMBA at the time it made the decision that is the subject of the court's review. Accepting any benefits or making any claim for benefits under this plan constitutes agreement with and consent to any decisions that DMBA makes, in its sole discretion and, further, constitutes agreement to the limited and deferential scope of review described herein.

NOTIFICATION OF NON-COMPLIANCE AND ABUSE OF BENEFITS

If a participant seeks to either bypass or ignore appropriate medical advice in an attempt to abuse the healthcare system (which may include, but is not limited to, jumping from physician to physician or emergency room to emergency room or seeking medications from multiple sources), DMBA has the right to place the participant on a "medical compliance plan."

The participant will then be instructed to receive care from certain providers and facilities that are specifically named in the compliance plan, as determined by DMBA.

If the participant chooses to receive care from providers or facilities that are not included in the compliance plan, benefits will be denied and

the participant will be responsible for paying all costs associated with this care, including repaying DMBA for any amounts it may have paid.

NOTIFICATION OF BENEFIT CHANGES

DMBA is subject to the Employee Retirement Income Security Act (ERISA) and reserves the right to amend or terminate this plan at any time.

LEGAL NOTICE

We have made every effort to accurately describe the benefits and ensure that information given to you is consistent with other benefit-related communications. However, if there is any discrepancy or conflict between information in this document and other plan materials, the terms outlined in the Legal Plan Document will govern.
